

ARES TECHNOLOGY AND SOLUTIONS, LLC

Government Capability Statement

Technical leadership for complex, regulated environments.

FEDERAL | STATE & LOCAL | PRIME CONTRACTORS | REGULATED COMMERCIAL

COMPANY OVERVIEW

ARES Technology and Solutions, LLC provides senior technical and management support for government, prime, and regulated commercial organizations where cybersecurity, modernization, integration, and execution must work together. ARES connects requirements and architecture to implementation, governance, and adoption - scoping work to the actual mission, operating environment, and delivery constraints.

CORE CAPABILITIES

Cybersecurity & Information Assurance

Security architecture and risk/control readiness
CUI / NIST SP 800-171 / CMMC readiness planning
Identity, access, segmentation and evidence planning
Remediation roadmaps and cyber program advisory

Infrastructure, Cloud & Systems Integration

Network, telecom and infrastructure architecture
Cloud / hybrid strategy and migration governance
Systems, interfaces and dependency analysis
Modernization sequencing, vendor review and acceptance

Technology Management & Organizational Change

Technology strategy, roadmaps and architecture review
Program recovery and fractional technical leadership
Governance, operating-model and process improvement
Stakeholder alignment, adoption and performance measures

Government Technical Program & Acquisition Support

Requirements decomposition and traceability
Trade studies, solution evaluation and technical diligence
Program governance, risk / issue / decision management
Teaming work packages, technical reviews and acceptance support

HOW ARES WORKS

BOUND THE PROBLEM

Clarify requirements, constraints, security obligations and decision points.

DESIGN THE PATH

Choose maintainable architecture, sequencing, governance and delivery choices.

EXECUTE DELIBERATELY

Coordinate people, vendors, systems and decisions with clear ownership.

DELIVERY DIFFERENTIATORS

Senior technical judgment stays close to the work and the client decision.
Architecture, security, program delivery, vendors and operating change are treated as one system.
Lean, scope-disciplined delivery model with task-specific specialist support when required.
Evidence-driven decisions, explicit assumptions, acceptance criteria and knowledge transfer.

COMPANY PROFILE

Legal name: ARES Technology and Solutions, LLC

UEI: JGRUJKMPB9X9

Ownership: Service-disabled veteran-owned

Location: Columbia, South Carolina
